SHILPA

ABOUT ME

A challenging career in a growing organization where my abilities and talent can be utilized to the optimum, a place where the job demands responsibilities and willingness to accept challenging tasks and commitment towards achieving goals and targets.

SKILL

STRUCTURED QUERY LANGUAGE

- Good understanding of DBMS concepts like Data Types , Constraints.

JAVA

- Good understanding of OOP concepts.
- Good knowledge of Decision statements and Methods.
- Good Knowledge of Loops statements.

WEB DEVELOPMENT

- Good knowledge of HTML
- Having knowledge of CSS
- Have the knowledge of Javascript
- Have the knowledge of React

PROJECT

LOCAL SHOP CONNECT:

- This is a web application, which allows users to purchase product from nearby local shops from anywhere. If shops have the home delivery option, then user can select the home delivery, otherwise when they will go to the shop all the ordered products will be packed.

RECIPE FINDER

- Recipe Finder is an easy-to-use web app that helps people find and cook recipes quickly. Users can search by ingredients, look through categories, save their favorite dishes, and follow steps with video links. It is made using React, Node.js, and MongoDB, and works well on different devices. Overall, Recipe Finder makes cooking faster, simpler, and more fun
